

Professional Moisture Spray

A blend of hydrating Natural Moisturizing Factors (NMF), MoistureZomes and MoistureMagnets super-charge the skin with moisture for a radiantly smooth, less lined appearance.

This makeup-saving formula draws and holds moisture to the surface of the skin, keeping makeup smooth and fresh. Lines fill up and flaking diminishes - skin is left ultra soft, without greasy residue.

Dampen makeup sponge with Moisture Spray prior to makeup application for color that glides on smoothly. May also be applied directly to the skin to boost hydration prior to makeup application or to refresh throughout the day.

- Super-charges moisture - without heavy oil
- Visibility softens lines, smooths texture
- Allows for even makeup application
- Sets makeup for long-lasting coverage

ACTIVE INGREDIENTS:

- **MoistureZomes:** water-filled liposomes; delivers time-released moisture between skin cells
- **Saccharide isomerate:** sugar-based "moisture magnet" locks moisture between skin cells
- **NMF Complex:** bio-sugar blend mimics skin's own Natural Moisturizing Factors for instant comfort
- **Trehalose:** hydrating saccharide found naturally in plants to protect them against dehydration
- **Sodium hyaluronate:** super-hydrator; bonds 1000 times its weight in moisture to skin
